2008

Mississippi P.E. #19289,  
2009

**Professional Summary**

A graduate of the University of Tennessee at Martin, Malone has over six years of civil engineering design experience of commercial and residential land development projects for both private developers and government agencies. He is a Professional Civil Engineer licensed in three states.

As Project Engineer for various engineering consulting firms, he was responsible for the design and construction administration of a wide range of projects including apartment complexes, retail center developments, and airport projects.

With ADG, Malone will be involved with airport project design, project administration, and construction inspection.

His experience with land development projects and airport projects will be an excellent resource on ADG projects.

**Featured Projects**

*Tuskegee Municipal Airport, Macon County, Alabama*  
Developed design plans and specifications for terminal building area site, aircraft parking apron, and automobile parking lot.

*Lee Merkel Field, Sylacauga, Talladega County, Alabama*  
Designed apron expansion, taxiway rehabilitation, and seal coat.

*South Alabama Regional Airport, Covington County, Alabama*  
Conducted drainage study for entire airport property to determine most efficient handling of storm water run-off for fully developed property.

*Bruce Campbell Field, Madison County, Mississippi*  
Developed plans and specifications for seal coat and marking of runway and taxiway.

*Copiah County Airport, Copiah County, Mississippi*  
Created plans and specifications for seal coat, tie-down layout, and marking of aircraft parking apron.

*Town of Shorter, Macon County, Alabama*  
Worked with town officials to create master plan of new downtown and town center to include municipal buildings, retail shops, and residential.

*Mobile Housing Board, Mobile County, Alabama*  
Designed road, drainage, and utilities for 84-unit housing development near the gulf coast.

*Camellia Country Club, Butler County, Alabama*  
Developed master plan for 100-acre site to include 100+ residential lots as well as a 9-hole golf course with clubhouse.
